About the Photographs

It's not just the story of the famous fox; it's Bilovice nad Svitavou, it's the forest with its scents, sounds, and the stories of its inhabitants, it's the local gamekeeper's lodge with the aroma of morning coffee and a chicken coop full of hens. It's also the love for Zlatohřibek, but also the premature end of the Cunning Little Vixen by the poacher's rifle.

It is Těsnohlídek's enduring legacy in the form of Christmas trees in town squares, symbolizing hope for children in need, at whose roots lies the little lost Liduška. It's a fairy tale printed in the newspapers, whose theme inspired Leoš Janáček to write his opera. It's a century-old tradition worth celebrating with a feast. Welcome to the Vixen's forest for a festive banquet.

This year's visual concept for Gourmet Brno 2024 is primarily about the feeling transported into the image—the feeling of The Cunning Little Vixen as a theme, its message, which remains relevant today. This is why the photographs feature many more abstract elements we found in authentic locations of the Bilovice forests. Walking through the summer landscape, following the traces of the sly, cunning fox, the badger, the mosquito, the forester, and the children from the lodge—we tried to convey the atmosphere and magic of these places for you. In doing so, we invite you to discover similar stories in the forests of Bilovice, or even your own, to stop for a moment, release your imagination, and let the stories come to you.
